Turner Begins Work on \$150 Million New Frayser Community High School

The state-of-the-art facility will foster academic excellence and serve as a cornerstone for the Memphis community.

April 21, 2025 – Turner Construction Company has begun work on the \$150 million New Frayser Community High School, a transformative project that will serve 1,500 students.

Spanning 270,000 square feet, the new high school is consolidating the current MLK Prep and Trezevant High School into one modern learning environment. The project will enhance the campus with a specialized center for career and technology education, a creative arts or fine arts center, STEM (Science, Technology, Engineering, Math) labs, advanced broadcast facilities, cutting-edge graphic design classrooms, modern sports facilities, and Junior ROTC facilities. The building will also emphasize durability, safety, and adaptability to accommodate future technological advancements and evolving teaching methods.

“Frayser High School is more than a building—it’s a promise to the next generation,” said Andy Davis, Vice President and General Manager, Turner Construction Company. “We’re honored to be a part of this project and to work with the Frayser community to create a space where students can thrive, explore, and build their futures.”

The development will be constructed in two phases and is scheduled to open in time for the 2027–2028 academic year.

###

About Turner Construction Company

Our vision is to be the highest value provider of construction services. We deliver our services on complex and challenging building projects of all types and sizes throughout North America and in 30 countries around the world. We seek to create a healthy, prosperous, and sustainable future for our people, clients, partners, and the planet. We have earned a reputation for integrity, working safely, and driving innovation. With a focus on creating an environment where people can be at their best, be authentic, and be treated with respect and dignity, the company is widely recognized as a great place to work. The firm is a subsidiary of HOCHTIEF, an engineering-led global infrastructure solutions provider with leading positions in North America, Australia and Europe and a rapidly expanding presence in high-tech, energy transition and sustainable infrastructure markets.
