

Image and reputation study 2018

Results report HOCHTIEF Corporate Communications

Background and objective

- Since 2009, YouGov has performed an image and reputation survey on behalf of HOCHTIEF among decision-makers from enterprises. This is the continuation of an image survey, which had been started by HOCHTIEF among opinion makers, stock analysts, and business journalists in 2004.
- Since 2009, the survey has been performed online. In addition, exclusively decision-makers from enterprises have been surveyed since then.
- It is an objective of the study to gain information on how HOCHTIEF is perceived in the relevant target group of the decision-makers and what potential for development is seen in different fields of activity.
